

February 12, 2010

Dear PortaParty:

I wanted to write to thank you for working with ISP Sports Network during the 2009-10 Football Season in support of our game-day broadcasts and the USF team. Having the PortaParty units deployed at each home game was a big plus for us and was a huge attraction for the many fans that come to enjoy the pre-game festivities and tailgating.

PortaParty was great to work with during the initial planning phase of putting this program together, and once we arrived at actually using the bars, your crews made the process smooth and flawless. They had the units deployed just as we wanted them and in advance of our scheduled use ~ every time. Can't say enough about PortaParty and the services you provide.

The USF | ISP Sports Network looks forward to continuing our support of USF Football and having you as part of the team.

Thanks again PortaParty!
